To Members of the University Community

This first edition of the University of Alberta Data Book has been compiled at the request of numerous members of the University Community. It is intended to provide individuals both within and ouside the University with a readily available set of data on the University of Alberta. Since this is the first attempt at a Data Book of this nature, we would very much appreciate receiving your comments, criticisms and suggestions.

Our thanks to the many individuals who assisted our Office in making available the data contained in the Data Book.

W.A. Preshing

W.A. Preshing, Director

Preface

This first edition of the Data Book contains historical statistical data on student enrolment, degrees, courses, academic and non-academic staff, finances, and space. Most tables provide at lease three years of data while some show five years. Student enrolment figures have been recorded at December 1, courses recorded at December 1 and April 1, staff counts recorded at approximately October, and finances have been recorded for the fiscal year ending March 31. Where deviations to these time periods occur they have been noted on the specific tables.

The Data Book is the result of much effort by many people in various offices on Campus, including those of the Registrar, the Comptroller, the Office of Administrative Systems, the Vice-President (Academic) and Faculty offices. As well, extensive effort was expended by members of Institutional Research and Planning in compiling these data.

The Data Book has been prepared to provide information required for planning and analysis at the University of Alberta. Suggestions to make future editions more useful to you will be most welcome.

Deborah Wener
Research Officer.

DEFINITIONS

STUDENTS

WINTER SESSION - The academic session consisting of Fall term - the period from September 1 to December 31 and Winter term - January 1 to April 30.

SPRING SESSION - The academic session extending from early May to mid-June (six weeks).

SUMMER SESSION - The academic session extending from early July to mid-August (six weeks).

ENROLMENT - A full-time student enroled in a faculty generates one enrolment for that faculty. A faculty's enrolment is the number of students enroled in that faculty's programs.

FULL-TIME STUDENT - Full-time students are those undergraduates who are assessed full fees and those graduates who are registered for a program of studies equivalent in courses and research to not less than three full graduate courses. To be assessed full fees in a term, an undergraduate must be enroled in three or more half courses.

PART-TIME STUDENT - Part-time students are all those enroled in a given term who are registered in fewer than three half courses or their equivalent.

UNDERGRADUATE STUDENT - One who is enroled in one or more courses for credit towards any degree other than those awarded by the Faculty of Graduate Studies and Research. An exception is the Special Student, whose course work the University is not bound to credit towards any degree requirements.

GRADUATE STUDENT - One who has been admitted and is enroled in, a program of study in the Faculty of Graduate Studies and Research.

QUALIFYING GRADUATE STUDENT - A student whose record is not consistent with full admittance into Graduate Studies may be admitted as a Qualifying graduate student. Normally, these are individuals who either hold a three-year bachelor's degree in the appropriate field or hold a four-year degree but are seeking admittance into a completely new field of studies.

VISITING STUDENT - A bona fide student of another university or college who has been permitted to take one or more courses for transfer of credit to his own institution which has agreed in advance to such an arrangement.

PROBATIONARY STUDENT - One who has been admitted (or permitted to continue) on a probationary basis, because his previous academic record is either deficient in some respect, below the standard ordinarily required, or difficult to assess. A special category is the Non-matriculated Adult Student: normally at least 24 years of age, who lacks regular admission requirements (one year admission on trial).

SPECIAL STUDENT - One who has been permitted to register in one or more courses, but not officially for credit towards a degree or diploma at this or any other institution.

DEGREE - The title officially conferred upon a student for the successful completion of a given curriculum or program.

DIPLOMA - A certificate awarded a student on successful completion of a program of studies. A diploma is distinct from a degree in that it does not affect the title that the individual may properly assume.

PROVISIONAL CANDIDATE FOR A DOCTOR'S DEGREE - All Ph.D., combined M.D.Ph.D, and Ed.D. students are first admitted as provisional candidates, and reclassified as candidates only when certain requirements relevant to the degree have been met.

CANDIDATE FOR A MASTER'S DEGREE - Category A: one who is a graduate of a 4-year degree program continuing in the same field; equivalent of an honors degree at the University of Alberta. Category B: a graduate of a 4-year degree program (beyond senior matriculation), specializing for the first time but not requiring a qualifying year.

COURSES

COURSE - Organized subject matter in which instruction is offered within a given period of time. Credit towards graduation or certification is given for 'credit' courses; 'Non-credit' courses carry no such committment on the part of the University. Course types are: clinic, lab-lecture, lecture, lecture-lab, laboratory, project, seminar, tutorial, reading, field, practicum, etc.. (The increase in the number of courses is due to two factors: 1. a natural expansion in course offerings; 2. the change from full-year to term courses. A full-year course is counted as one and a term course is also counted as one.)

LEVEL OF A COURSE - The level of academic sophistication at which instruction in an academic specialty may be offered; or, the level of student to which a course is primarily directed. Suggested course levels are:

	Courses numbered
lower - preparatory	100 - 199
junior	200 - 299
upper or senior	300 - 499
Graduate I or Masters	500 - 599
Graduate II or Doctoral	600 and up

NON-STANDARD COURSES - includes directed individual study, field school, student teaching, clinical, reading, research, conference, drama labs, comprehensive, practical subject, problems, topics, practicum, industrial tour, survey school, practical experience, and outdoor school.

SEMINAR - A course distinguished by relatively small enrolment and in which group discussion plays an unusually large role in the class experience. Some lecture courses involve seminar periods, where the lecture section may be broken into smaller groups.

LAB - Instructional activity which requires special purpose equipment and/or student experimentation or observation.

NON-LAB - All instructional activity which cannot be classed as laboratory instruction. This includes lecture and seminar classes.

COURSE REGISTRATION - One student registered in one course; a student registered in one full year course is counted as one registration, and a student registered in a term course is also counted as one. A student enrols in a faculty or a program, and he registers in courses.

WEEKLY STUDENT HOUR - A unit of measure which represents one hour of instruction given to one student during each week for a given term. Weekly student hours are reported by the type of instruction: laboratory or non-laboratory; standard or non-standard. The weekly student hours generated by a course in a given term is the product of the hours per week that the course is taught and the registration in the course. e.g., Suppose a total of 212 students registered in the Winter term offerring of Astrology 300, which consisted of 3 hours lecture and 6 hours laboratory instruction per week.
For Astrology 300, then:
WSH (non-lab) = 3 x 212 = 636 WSH
WSH (lab) = 6 x 212 = 1272 WSH

SECTION OF A COURSE - If a course's registration in a given term is broken into two or more sub-groups, which meet at different times and/or different places under the supervision of instructors, then each sub-group constitutes a 'section' of the course. If all 'sections' meet in the same place and time, under the supervision of any number of instructors, then only one 'section' is deemed to exist.

WEEKLY CONTACT HOUR - A unit of measure which represents one hour spent by one faculty member instructing a scheduled class during each week for a given term. Weekly contact hours are reported by the type of instruction: laboratory or non-laboratory; standard or non-standard. The WCH generated by a course in a given term is the product of the hours per week that the course is taught and the number of sections into which the course is divided. e.g., Suppose Astrology 300 in the Winter term consisted of 3 hours of lecture and 6 hours of laboratory instruction. There were two lecture sections (100 and 112 students, respectively) and 12 lab sections.

For Astrology then:
WCH (non-lab) = 2 x 3 = 6 WCH
WCH (lab) = 12 x 6 - 72 WCH

AVERAGE SECTION SIZE - The average class size being supervised by teaching personnel. The calculation:

$$\text{Average Section Size (Lecture or Lab)} = \frac{\text{Total of Course Registrations}}{\text{Total number of sections}}$$

It is usually meaningless unless the type - lecture, seminar, or lab-is specified.

STAFF

FULL-TIME CONTINUING - are all those persons who have tenure or are on probationary appointments leading to tenure.

FULL-TIME TEMPORARY - are those persons who have been appointed on either a sessional or a year basis to do a full-time job.

PART-TIME - are those persons employed who are not considered "full-time". This could include lecturers, instructors.

FULL-TIME EQUIVALENT OF PART-TIME - would be determined by the department head. As a general rule, a graduate who receives the maximum stipend will be considered as one third of a full-time member. Other part-time members would be converted to an FTE basis using a full-time workload as a guide.

FINANCE

FISCAL YEAR - The period extending from April 1 to March 31.

OPERATING EXPENDITURE - An outlay or the incurrence of a liability during one fiscal period to acquire or add to an asset whose benefits expire during the same fiscal period.

CAPITAL EXPENDITURE - An outlay or the incurrence of a liability during one fiscal period to acquire or add to an asset producing benefits extending beyond the same fiscal period.

INDIRECT INSTRUCTIONAL EXPENSE - includes
Animal services
Boreal institute
Centre for the study of mental retardation grant
Computing services
Conference grants
Contingency salary provision
Institute of law research and reform grant
Radiation control committee
Research fund grants
Salary pool
Technical services
Theoretical physics institute grant
Theoretical psychology centre

STUDENT SERVICES EXPENSE - includes
Alumni secretary's office
Student affairs
Student awards office
Student counselling
Student health service

PUBLIC SERVICE DEPARTMENTS - includes
Broadcasting services
Extension departments

ADMINISTRATIVE DEPARTMENTS EXPENSE - includes
President's office
Vice-president (academic)
Vice-president (finance and administration)
Vice-president (planning and development)
Investment office
Comptroller's office
Personnel office
Purchasing department
Registrar's office
Campus development
Fund development office
Institutional research and planning
University ombudsman
Secretariat
Administrative data processing

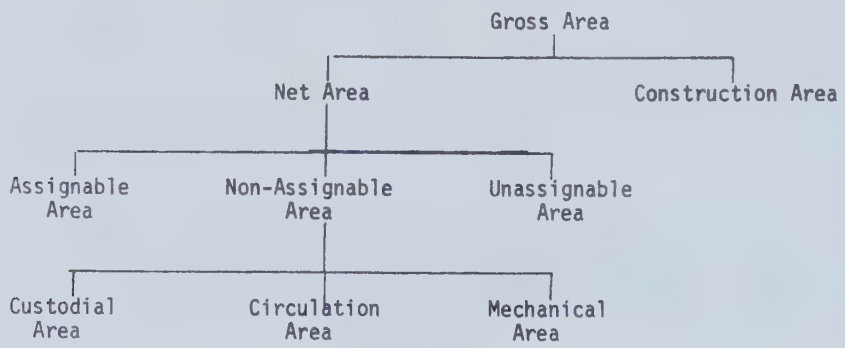
MISCELLANEOUS EXPENSE - includes
Central stores
General expense
Post office
Public relations office
Publications office
Senate
Special publications
Shipping and receiving
Special services
Undistributed staff benefits

OPERATING DEPARTMENTS - includes
Bookstore
Housing and food services
Physical plant operating
Printing services
Property rentals

SPACE

GROSS AREA - The sum of the floor areas within the outside weatherface of exterior walls for all stories or areas which have floor surfaces.
- includes: basements (where excavated), attics, garages, enclosed porches, penthouses, mechanical areas, lobbies, mezzanines, balconies, corridors, roofed or canopied loading or shipping platforms and interconnecting tunnels and bridges.
- excludes: open courts and light wells, portions of upper floors eliminated by rooms or lobbies which rise above single floor ceiling height, or floored surfaces with less than 6'6" clear headroom that cannot be properly designated as assignable, mechanical, circulation or custodial areas. Computed by measuring from the outside weatherface of exterior walls, disregarding cornices, pilasters, buttresses, etc. which extend beyond the primary weatherface.

All other categories of building space are contained within gross area, as indicated by the figure:



NET AREA - The sum of individual floor areas included between the interior surfaces of walls and partitions of all rooms and finished enclosed cupboard spaces. Includes custodial, circulation, mechanical, unassignable areas.

ASSIGNABLE AREA - The sum of all areas on all floors assigned or assignable to an occupant. Includes all space which may be put to use in furtherance of the institution's mission. Excludes areas defined as non-assignable, unassignable, and construction areas.
